

Environmental Field Technician

Vista GeoScience, a leader in Environmental and Remediation Field Services, is looking for motivated individuals to join its team. Vista currently has positions available for Environmental Direct-Push (Geoprobe®) and Auger Rig Lead Operator. Training is also available for the right reliable and motivated individual. We are a progressive and growing environmental investigation service company. Vista GeoScience offers a diverse range of environmental site investigation, remediation and exploration services to its clients and a wide variety of exciting project and site experience to its staff. Our team goal is to create a great customer service oriented “go-to” company with both clients and employees that value the relationship and better quality of service we provide.

Primary job duties include:

- Operating Geoprobe® Direct Push Technology (DPT) and auger rigs,
- Collecting soil, soil gas and ground water samples for environmental investigations
- Injection of remediation chemicals for in-situ ground water treatment
- Subsurface geophysical borehole logging.

Frequent travel is required including both in state and out of state locations, and some very remote locations, often through weekends and over some holidays. Some international travel is possible. Work is year-round, outdoors and in all weather conditions.

Qualifications:

An OSHA 40-hour HAZWOPER (CFR 1910.120) certification is proffered and required within two weeks of employment. Former military. You must be physically fit, and be able to pass a Drug Test, DOT & HAZWOPER medical clearance, and respirator medical clearance. Physical endurance and heavy lifting is required including the physical ability to safely lift 100 pounds.

Candidates with a current and valid CDL are preferred. Must acquire a Commercial Drivers License (CDL) within 60 days of employment. Must have a current, valid Colorado driver's license. A clean driving record is required.
