

*Expert Environmental Support Services for
Site Investigation & Remediation*

Accepting Experienced Environmental Field Technician Positions

Vista GeoScience, a leader in Environmental and Remediation Field Services, is looking for motivated individuals to join its team. We are a progressive and growing environmental investigation service company.

Vista currently has positions available for **Experienced Level Environmental Direct-Push (Geoprobe®), Auger Rig, and Injection Specialist Lead Operators**. Training is available for the right reliable and motivated person. Hourly positions are offered in:

- Texas Location – Dallas, Houston, Austin, and San Antonio
- Colorado Location – The Greater Denver Area

Vista GeoScience offers a diverse range of environmental site investigation, remediation and exploration services to its clients and a wide variety of exciting project and site experience to its staff. Our team goal is to create a great customer service oriented “go-to” company with both clients and employees that value the relationship and better quality of service we provide.

Primary job duties include:

Experienced Level position:

- Operating Geoprobe® Direct Push Technology (DPT) and auger rigs.
- Collecting soil, soil gas and ground water samples for environmental investigations.
- Injection of remediation chemicals for in-situ ground water treatment.
- Potential to assist with Subsurface geophysical borehole logging.
- Completion of field events using direct push sampling and hollow stem auger rigs to collect soil/groundwater samples.
- Monitoring well installation, chemical injection services.
- Potential to assist with Mip/HiPT/EC and investigative fluorescence tools.
- Problem solving, and flexibility is also key to the success of this staff member and the candidate will need to provide experience in developing junior staff members, field project summaries, fabrication projects, and equipment or truck maintenance and repair.
- Report to the Field Operations Manager
- Potential position for Texas Regional Manager
- 40-60 hours per week anticipated
